

Position Description

WATER RESOURCES PAID INTERNSHIP

Location

Montpelier, Vermont

Position Summary

Stone Environmental seeks an early-career professional to assist our Water Resources Management team with field work and data management over the summer months.

This is a full-time position from May through August 2019, with the possibility of extending work into the fall.

Responsibilities

Duties will involve sampling and assessment of stormwater infrastructure, routine sampling and maintenance of water quality monitoring stations, equipment troubleshooting, and data collection and management using ESRI Survey123 and Microsoft Excel.

Required Skills

To be considered for this position, the following skills are required:

- Strong organizational skills
- Experience with Microsoft Excel
- Critical thinking and problem solving
- Self-motivation and keen attention to detail
- Ability to work as a part of a team, independently, and safely in a variety of environments, including streams, roadways, and farm fields
- Ability to lift catch-basin grates (up to 100 lbs.) using a grate hook
- A valid drivers license for travel to field sites

Experience and Education

A minimum of two years of post-secondary education is required for this position.

How to Apply
